

EcoFlow Blade

EcoFlow Blade is the world's first robotic lawn-sweeping mower. Fitting perfectly into the modern-day smart home, Blade saves users vast amounts of time and effort through its fully app-operable programs. Offering automatic leaf collection, virtual boundary navigation and precision lawn mowing, Blade combines the quality of professional lawn services with the convenience of robotic mowing.

- Includes the world's first lawn sweeper kit
- Virtual boundary & automatic route planning
- Smart obstacle climbing and avoidance
- Anti-theft with 4G & ESIM
- Full app control
- Easy to maintain

Available in Spring 2023

EcoFlow aims to perfect the living experience using battery power and smart devices, no matter whether you're at home, on the go, or outdoors. Our mission is to reinvent how the world generates, stores, and uses energy creatively and practically. As well as portable power stations, EcoFlow provides our customers with a range of Smart devices that use plug-in batteries to enhance and maximize power. These smart devices include EcoFlow Glacier, a portable fridge freezer with a long-life battery and ultra-fast ice-making capabilities, EcoFlow Wave 2, a portable air conditioner unit with exceptional cooling power and speed. And Blade, the Smart lawnmower.

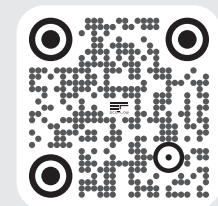

EcoFlow is a leading eco-friendly energy solutions company with the vision to power a new world. Since its founding in 2017, EcoFlow's mission is to reinvent the way individuals and families access energy by providing reliable, accessible and renewable power solutions. Today, with three operational headquarters located in the US, Germany, and Japan, EcoFlow has empowered more than 2 million users in over 100 markets worldwide.

EcoFlow Glacier

EcoFlow Glacier is the next-generation portable refrigerator. The first of its kind to include a plug-in battery and ice maker. Glacier enables campers, beach-goers, and backyard BBQ-ers alike to take the comfort of indoor luxuries into the great outdoors. Glacier produces ice cubes every 12 minutes and can run cordlessly for up to 24 hours on a single charge. With a direct solar charging option, Glacier is a sustainable solution for keeping food chilled and beverages ice-cold anytime, anywhere.

- The world's first fridge freezer with an integrated ice-maker that produces 18 ice cubes in approximately 12 minutes
- 297Wh battery capacity runs for up to 24 hours
- High-speed cooling with efficient energy-saving
- Directly charge using solar panels
- Robust and made from green materials
- Full app control

Available in Spring 2023

EcoFlow Wave 2

EcoFlow Wave 2 is the perfect portable air conditioning solution to cool or heat indoor, on-the-go, and outdoor spaces year-round. Upgraded for increased portability and power, Wave 2 is more compact than our previous model while providing an improved cooling and heating experience that you can take anywhere. With an extended, 8 hrs running time, you'll sleep, play or work comfortably in your van, tent, or outdoor space.

- 5100 BTU cooling & 6100 BTU heating performance
- Weighs only 14kg, portable and compact
- 5 ways to power
- Add-on battery ensures 8 hrs of running time
- Easy to install, use and maintain
- Full app control

Available in Summer 2023

Smart Devices

Perfect your power experience with our energy-efficient Smart Devices. The EcoFlow product ecosystem already allows you to generate and store energy anywhere. And now, our Smart Devices can benefit from your home-grown energy with built-in batteries and solar charging.
