

 hapbee

feeling is believing

The wearable that can help change how you feel

Real Science. Trusted Benefits.

In blind tests, 100% of onboarded users can feel and tell the difference between Hapbee's signals.

A stroke of genius!

Dave Asprey

Founder, Bulletproof Coffee

Last night makes 4 nights in a row of incredible sleep. WOW! Such a difference maker.

Chad Howse

Calgary, Alberta Canada

I can honestly say that I feel a difference. I'm now in control of what I want to feel.

Gerold Reynold

A Wearable Wellness Revolution

In a world increasingly focused on wellbeing, Hapbee's advances in wearable technology takes fitness, focus, daily activity and sleep to the next level.

Hapbee is a wellness wearable that replicates the magnetic signature of ingredients like caffeine, TGHC, CBD, nicotine, melatonin, and others through safe, ultra-low magnetic frequencies.

When Hapbee's ground-breaking technology then plays back those frequencies to your brain, it gives your body the same experience as the ingredients without actually ingesting or processing it.

Enjoy better sleep, greater focus, and pain recovery without the nasty side effects of chemicals, pills, cigarettes, or consumables.

Change How You Feel

Non-Ingestive. Non-Invasive.

Backed by decades of research.

Our brains work by sending electro-magnetic signals throughout our bodies, and our body's neurons react to these different types of signals by recognizing each one's unique magnetic signature. Hapbee's technology has captured and replicated those specific magnetic signatures, allowing you to choose which one you wish to play through our device to help your state of mind.

Simple Just pair a Hapbee wearable with your phone, place the band around your head or neck, and select a signal.

Safe Hapbee employs low-energy magnetic fields that have been used therapeutically for decades.

Effective In blind tests, 100% of users can feel and tell the difference between Hapbee's signals.

Hapbee emits an ultra-low energy ingredient signature

Lightweight and water resistant, with long (18 hr+) battery life

Bluetooth Low Energy means minimal RF exposure

Blends are designed to take effect quickly and wear off quickly after your session ends

There's a Blend for Every Situation

A Hapbee blend is a combination of different magnetic signals engineered from the signatures of key natural ingredients. Your body's receptors receive these signals like a song while the Hapbee device plays them.

Enhance Your Sleep

Fall asleep faster, enjoy a deeper, restorative sleep, and sleep through the night.

Elevate Your Performance

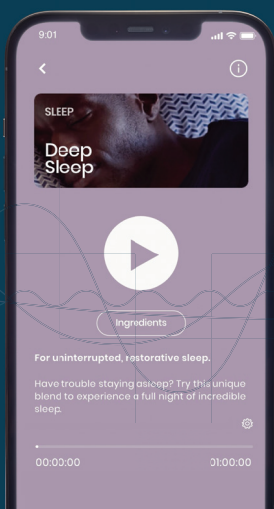

Boost your performance all day with more energy, better focus, and more creativity.

Support Your Mental Wellness

Find your Hapbee place with a more peaceful state of mind, clarity, and calmness.

Boost Your Physical Well-Being

Feel better from head to toe with less pain, better movement, and a feeling of being more relaxed.
