

SURROUND SOUND – ON YOUR SHOULDERS.

Customized. Comfortable. Close.

BeHear PROXY is a unique combination of a wireless neck speaker and personal hearing amplifier - powered by Alango's advanced audio technology.

CUSTOMIZED - according to your unique hearing profile.

COMFORTABLE – lightweight speaker, high quality crisp sound while leaving your ears free. Suitable for use with hearing aids.

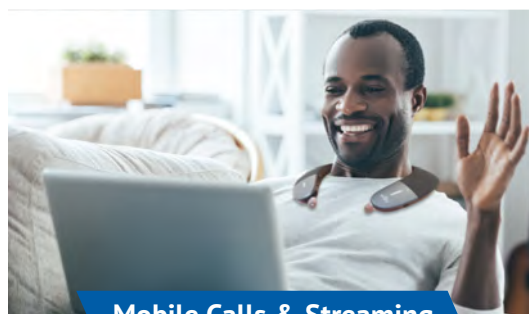

CLOSE – brings sound close to your ears for a personal, immersive experience. Extractable earbuds enable private listening.

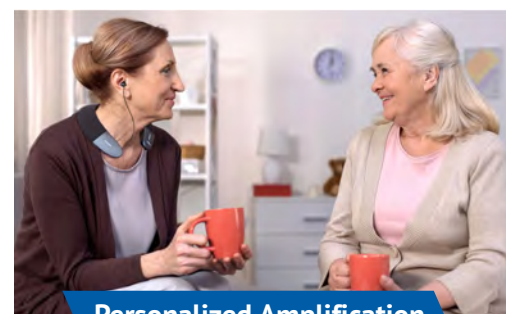

TV Watching

- Rich stereo sound, inches from your open ears
- Pairs simultaneously and switches easily between TV and smartphone

Mobile Calls & Streaming

- Loud and clear mobile calls, podcasts, YouTube videos, and Zoom conferences
- EasyListen™ imperceptibly slows down incoming speech for better comprehension

Personalized Amplification

- Easily customized using the dedicated smartphone app
- Can be used to relieve hearing aid fatigue
